

Our Services

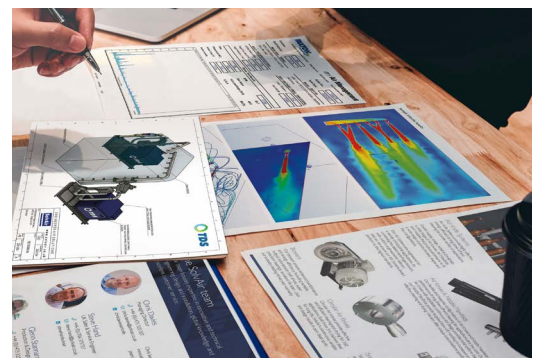

SolvAir offer an extensive range of innovative Air Knife solutions and comprehensive engineering services.

We provide the full range - from single supply components through to fully supported turnkey installations.

Here at SolvAir we ensure all our clients experience our exceptional levels of efficiency and professionalism, from the very beginning of your journey.

We keep our clients fully informed at every stage of the process to ensure you have a thorough understanding of our system design. This guarantees that you obtain the maximum benefit from your equipment once in operation.

SolvAir

Survey & Site Visit

SolvAir provide free site visits for all our customers. We listen to your aspirations and concerns, ensuring a complete understanding of your requirements. As each production scenario is unique we discuss, review and record application data, providing great customer service at every stage.

Design

At SolvAir we have decades of experience in providing innovative air solutions. We use our expertise to explore and identify the best solution for each client scenario, utilising the very latest 3D modelling software to develop our designs, and our team continuously reviews our service pre and post order.

Manufacture

SolvAir provide concept models, progressing on to full detailed drawings and specifications. Our well-developed supply chain means we always make full use of the latest manufacturing technology. All our equipment is assembled at our base and we ensure tests are passed prior to despatch.

Installation

SolvAir offer the full installation service. We complete pre-installation risk assessments and method statements, always ensuring our engineers respect and adhere to your site standards. We keep our clients fully informed at every stage ensuring complete installation in a safe and timely manner.

Commissioning

We design, manufacture and install your chosen solution to your requirements, completing performance checks, fully commissioning and placing the equipment into service. We will also train your team on how to use and maintain your equipment to ensure maximum effect.

After Sales

To maintain a high standard of performance SolvAir offer post sales support and advice, including a range of service packages for routine periodic maintenance. We respond quickly to queries, stocking a range of spares parts and ensuring swift delivery from our stock to our clients.

For information on our sales support and service packages please contact us.
